Examine the "Light Running New Home" Sewing Machine at Barnhouse's. They sell NEW MACHINES at \$15 and up.

Lost—One bill book containing one hundred and ninety-seven dollars in paper and fifty cents in silver, with some notes. Any one finding the same and returning it to M. W. Munger, at Munger, Mo., will be amply rewarded for the same.

Train No. 56 due here at 4:30 o'clock in the morning was held up a few miles south of Little Rock at 7:30 o'clock last night. The express was blown open and the messenger badly hurt. The amount secured by the robbers is not known.

Mr. T. E. Moore arrived from Michigan last Saturday and is arranging to open the screen factory. The Buchanan Screen Works have removed from Hillsdale to Adrian, Michigan, where a large and improved plant has been erected. It is likely some improvement will soon be made in the plant here.

C. C. Lashley desires to call the attention of the public to the fact that he has opened a restaurant and lunch room in the building north of Dr. Farner's office. Lunches and meals are served at all hours—night and day. The patronage of the public is respectfully solicited.

Says an exchange: "The newspaper that can be published in a way that will offend nobody is a jewel, and the editor is entitled to a pair of golden wings. It is not in the province of a newspaper to please every one, and the editor can extract consolation from the fact that the Lord himself failed to please everybody when he was on earth."

The diamond drills which have been at work near Bismarck for several weeks past have, thus far, failed to reveal any lead in that vicinity. Neither has the drill which the Iron Mountain Company had on Cedar Creek located any mineral. It is the intention of the company to thoroughly prospect the Bellevue Valley, but this will not be done until next spring.

The Forty-Third annual meeting of the Missouri Horticultural Society will be held in Farmington, Mo., December 4th, 5th, and 6th. Mr. Chandler of Farmington was here this week endeavoring to secure specimens of fruit to place on display during the meeting. All growers are requested to send specimens to Farmington within a few days of the meeting of the association.

A new social club has been organized by the young men of the town. The object is to have a place to play cards and pass the hours of the long winter evenings. They have rented a room in the south corner of the Academy of Music. The club will be open every night in the week. The boys, however, have been unable to agree on a name for their organization, and so they have agreed to offer a prize of a 3 lb. box of candy to the young lady who suggests a most suitable name. Address all communications to Wm. J. Schwab, President.

There are several places on the sidewalk between the Nagel and Roehry corners which need filling up. When a smart shower comes along a dozen or so miniature lakes are formed. They are about ankle-deep and make the footway mighty unpleasant, not to say impassable. It does no good to cross the muddy street on to the west-side walk for it is just as bad in frequent spots, if not worse. Surely, in view of the money expended to make our little city as it should be in other ways—it is not unreasonable to insist the evil complained of be abated.

The St. Louis Iron Mountain and Southern Railway Co. has a corps of surveyors looking out a route around Gads Hill. They have been at work about a month and have run several lines. Tuesday of this week they ran into the main line at the northern edge of our city limits. The last route and the one that seems to give the best satisfaction, leaves the main line something over a mile north of Gads Hill, runs to the east, comes down the branch by Phillips church, down through the shut-in, and across the farm of Judge T. A. Johnson and intersects the main line as above indicated. A tunnel of some 2,000 feet in length will have to be dug under the backbone, just east of Gads Hill; and when this is done the surveyors claim that one of the large engines will take 30 cars over the hill. The company seems to be in earnest about a route around Gads Hill and Hogan Mountain, and it is believed that a new route around these hills will soon be an accomplished fact.—Piedmont Banner.

Hans and Katrina witnessed Prof. Daugherty's foot ball game a couple of weeks ago. This is Katrina's poetical effusion in reference to the game:

"Ach, vell, dar vas a lot of mens

Vould dey just mit surprise.
"Vell after dot, dey went to work
Und stood around a vich;
Und ven dey all got tired vy

"Und den der game vas ofer, und

Und all der preddy girls dey said,
"Ach, himmel, ain't id cute?"

Teachers' Reading Circle.

The Iron County Teachers' Reading Circle will convene at the Ironton Public School building, Saturday, November 24, 1900, at 1:30 p. m.

The program as previously announced will be supplemented with music and recitations.
It is earnestly hoped that we shall be able to report a large attendance at our next meeting. There is no reasonable excuse to be offered for not attending these meetings occasionally, if not regularly. If you are so far advanced that you need no help from your fellow teacher, you should be willing to bring your attainments into the common stock and thereby help those who are less fortunate. If you feel that you need to pursue systematically a course of professional study, you should not fail to do the reading circle work for this year. These meetings are for mutual improvement, and we should be willing to make a sacrifice of one day in each month for the general good. The teacher who refuses to do any professional work except that for which he receives pay, violates his nature by allowing himself to stagnate, and he will one day find that he must stand back to give room for some one who fully realizes that "Teaching children is the greatest of responsibilities," and he only can lead, who is, himself, moving.

Respectfully,
J. M. HAWKINS.

Southeast Missouri Medical Association.

BISMARCK, Mo., Nov. 16, 1900.
Editor Register—I should be pleased indeed if you will permit me the space in your columns to report to you the proceedings in brief of the 26th annual meeting of the Southeast Missouri Medical Association held in Bismarck last week, inasmuch as we feel honored to have such a distinguished assembly of gentlemen within our city. The attendance was not as large as expected but no higher grade of intellect ever visited us in a body and the proceedings were of an intellectual and gratifying nature. The session was of two days' length and most excellent papers were read and discussed, and all departed expressing the feeling that the meeting was a grand success.

The first evening was mainly a social affair in honor of the medicals' arrival, and the hall was seated by two hundred and twenty-five of our best citizens, who not only enjoyed the coming of the doctors but paid high tribute to the classical music rendered by the ladies and gentlemen of our village, both vocal and instrumental, directed by the queen of music, Miss Abess Butler. The encores were numerous and judging by expression of appreciation from attention given, these people enjoyed a treat seldom ever seen or heard in a town of this size.

The Glee Club was at its best and its "Good Night, Gentle Folk" was the nicest thing ever heard. The recitation by Miss Myrtle Paul, "Brought back", was delivered with grace and dignity characteristic of her own God-given talent tutored to perfection, and caught the audience in breathless attention.

Mr. John H. C. Fritz delivered the welcome address on the part of the citizens. In both eloquence and language the society considered it the most superb and profound welcome address ever delivered to its membership and received by the audience with a pleasure which shall always make us proud that such an intelligent gentleman has chosen our town his place of abode.

The society adjourned Thursday afternoon to meet in Charleston May, 1901.
Dr. Ira A. Marshall of Ironton and Dr. F. W. Stammer of Bismarck were elected to membership.
Politics a thing of the past and health generally good.

Sincerely, ANON.
